Waste Discharge Regulations

“Everything you wanted to know - but were afraid to ask”

Hubert Bunce, BSc.

***EP Officer, Environmental Protection Div.,
Ministry of Environment***

Mr. Bunce will be discussing the first new regulation under the Environmental Management Act (previously the Waste Management Act) - the ***Waste Discharge Regulation*** (WDR). The WDR represents a major change in the direction of the Province in managing industrial and municipal emissions. A Technical Committee provided advice on development of the WDR and developed the guide and implementation information for the WDR.

The presentation today will be one of many held around the province to provide information about the WDR to interested stakeholder groups.

Mr. Bunce received a Bachelor of Science from the University of Victoria, and began his career with the planning department of the "other" CRD (the Cariboo Regional District). In 1987, he began working for the Ministry of Environment, first in Williams Lake, and since 1995 in Nanaimo. He has been involved in the drafting and administration of industrial waste discharge permits issued under the Waste Management Act and now those issued under the Environmental Management Act. In 2004, Mr. Bunce became a member of the Waste Discharge Regulation (WDR) Technical Committee.
